ASSIGNMENT

WHEREAS, Avrio Technologies, Inc., is a Delaware corporation having a place of business at 990 Enchanted Way, Suite 104, Simi Valley, California 93065;

WHEREAS, Avrio Technologies, Inc., is the owner of United States Patent Application Serial No. 10/077,522, entitled, "WAVELENGTH TUNABLE LASER," filed on February 15, 2002 (hereafter "the Application"); Avrio Technologies, Inc., is the owner of the application by virtue of an Assignment (recorded at Reel 012626, Frame 0983) from the named inventors on the patent application.

WHEREAS, Afonics Fibreoptics, Ltd., is an English corporation having a place of business at 16 Thorney Leys Business Park, Witney, Oxfordshire OX28 4GE, United Kingdom;

WHEREAS, Avrio Technologies, Inc., desires to transfer all right, title and interest in the Patent to Afonics Fibreoptics, Ltd.;

WHEREAS, Afonics Fibreoptics, Ltd., desires to acquire all right, title and interest in the Patent from Avrio Technologies, Inc., ;

NOW THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, the undersigned, hereby

Sells, assigns and transfers to Afonics Fibreoptics, Ltd., its successors, assigns and legal representatives, all hereinafter referred to as the Assignee, the entire right, title and interest for the United States and all foreign countries, in and to any and all inventions which are disclosed in the Patent, and in and to said application and all divisional, continuing, substitute, renewal, reissue and all other applications for Letters Patent which have been or shall be filed in the United States and all foreign countries on any of said inventions; and in and to all original and reissued patents which have been or shall be issued in the United States and all foreign countries on said inventions including the right to apply for patent rights in each foreign country and all rights to priority.

Agrees that said Assignee may apply for and receive Letters Patent for said inventions in its own name; and when requested, without charge to but at the expense of said Assignee, agree to carry out in good faith the intent and purpose of this assignment by executing all divisional, continuing, substitute, renewal, reissue, and all other patent applications on any and all said inventions, by executing all rightful oaths, assignments, powers of attorney and other papers, by communicating to said Assignee all facts as known to me relating to said inventions and the history thereof, and generally by doing everything possible which said Assignee shall consider desirable for aiding in securing and maintaining proper patent protection for said inventions and for vesting title to said inventions and all applications for patents and all patents on said inventions, in said Assignee.

Agrees that this assignment grants the right to sue for past infringement.

Covenants with said Assignee that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by me, and that full right to convey the same as herein express is possessed by me.
